TAKSHANAM

OUR STORY

Takshanam is a conglomeration of designers, architects, engineers, businessmen and craftsmen, dedicated to designing and manufacturing high quality designer furniture and products under the company 'Adarsh Wood Craft' which was set up in 2019.

We started from a small space in the backyard of our present showroom; named 'Adarsh Furniture Centre' as the only furniture shop in the district in the year 1982, with pretty much single-handedly doing all the work involved in furniture making. Since then, we have been building our team and infrastructure bit by bit, day by day.

With an experience of almost 40 years now, we have a state-of-the-art facility with high tech machinery and skilled carpenters, based in Satna, Madhya Pradesh where we make solid wood as well as modular furniture.

In addition, we also have an in-house plywood, flush doors and block boards manufacturing unit under our sister concern by the name of 'Adarsh Sales Pvt Ltd'. We are also into manufacturing of UPVC doors and windows.

We believe in ethically and consciously producing furniture to cater to the users' needs while maintaining the highest standards of quality and design, to be able to deliver the utmost level of satisfaction and a wonderful experience to our clients and ourselves.
